## F1 big front recording button police body camera

F1 big front recording button police body camera

Please check the comparison between H.265 & H.264 video compression as below:

Format	Resolution	Recording file size (MB)	Recording time (per hour)	Recording file size (GB)
H.265	720P 30FPS	190 MB	10 minutes	0.94GB
H.264	720P 30FPS	300 MB	10 minutes	1.76GB

H.265 video is nearly half of the H.264 video, which indicates that user can use 32GB SD card to be used as 64GB SD card.

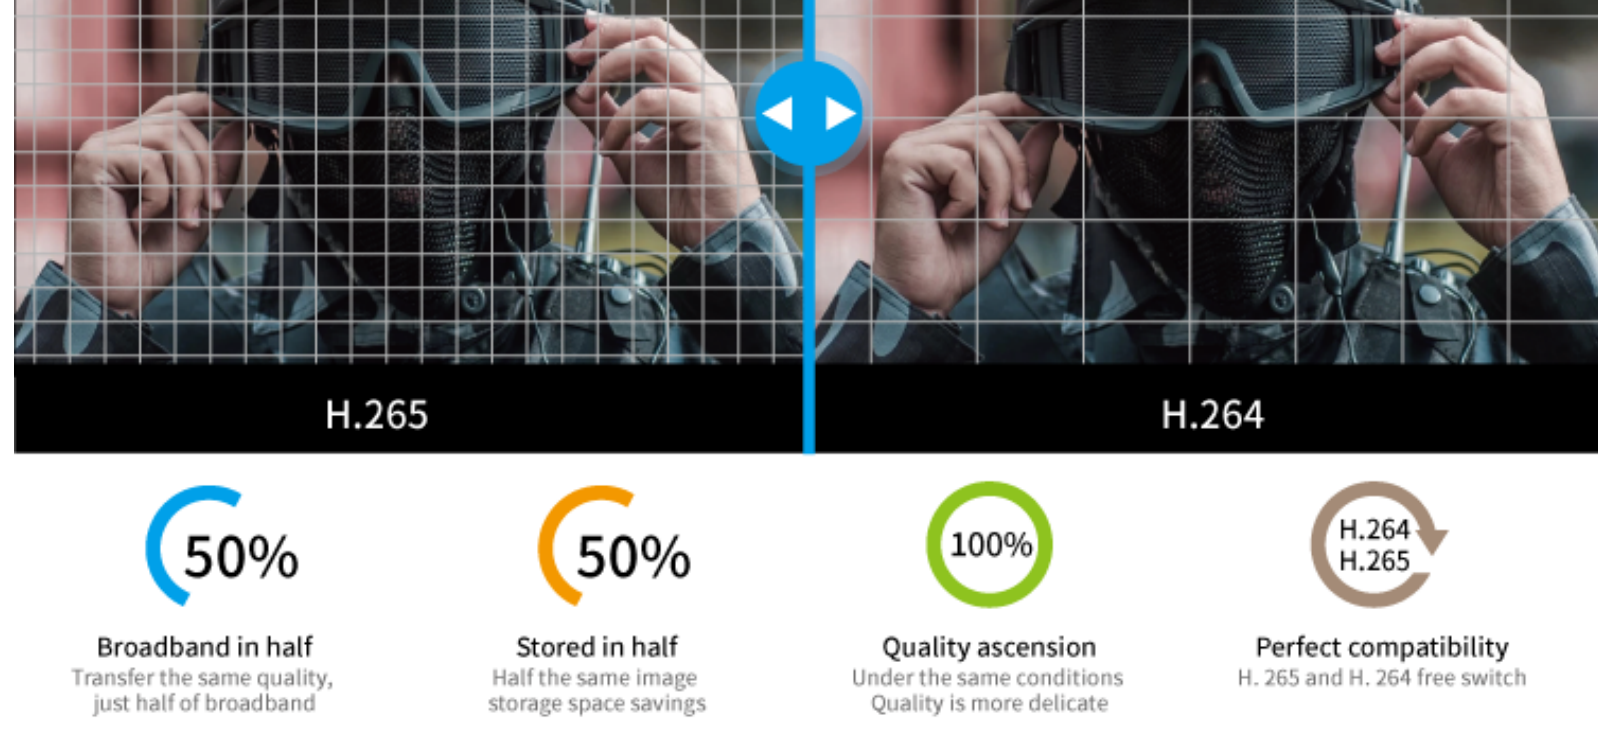

## Ambarella DSP

Ambarella is a new generation of high quality chip. Cooperate with HD camera, and large wide-angle function, make More clear and vivid image.

## A richer, more fluid of H. 265 Technology

H. 265 video coding standard h. 265 upgrade, is commonly used 4K video coding format, the same image quality and bit rate, h. 265 to take up less storage space.

## Built-in GPS module

Remote real-time positioning, support GPS, Beidou positioning, real-time update location information.

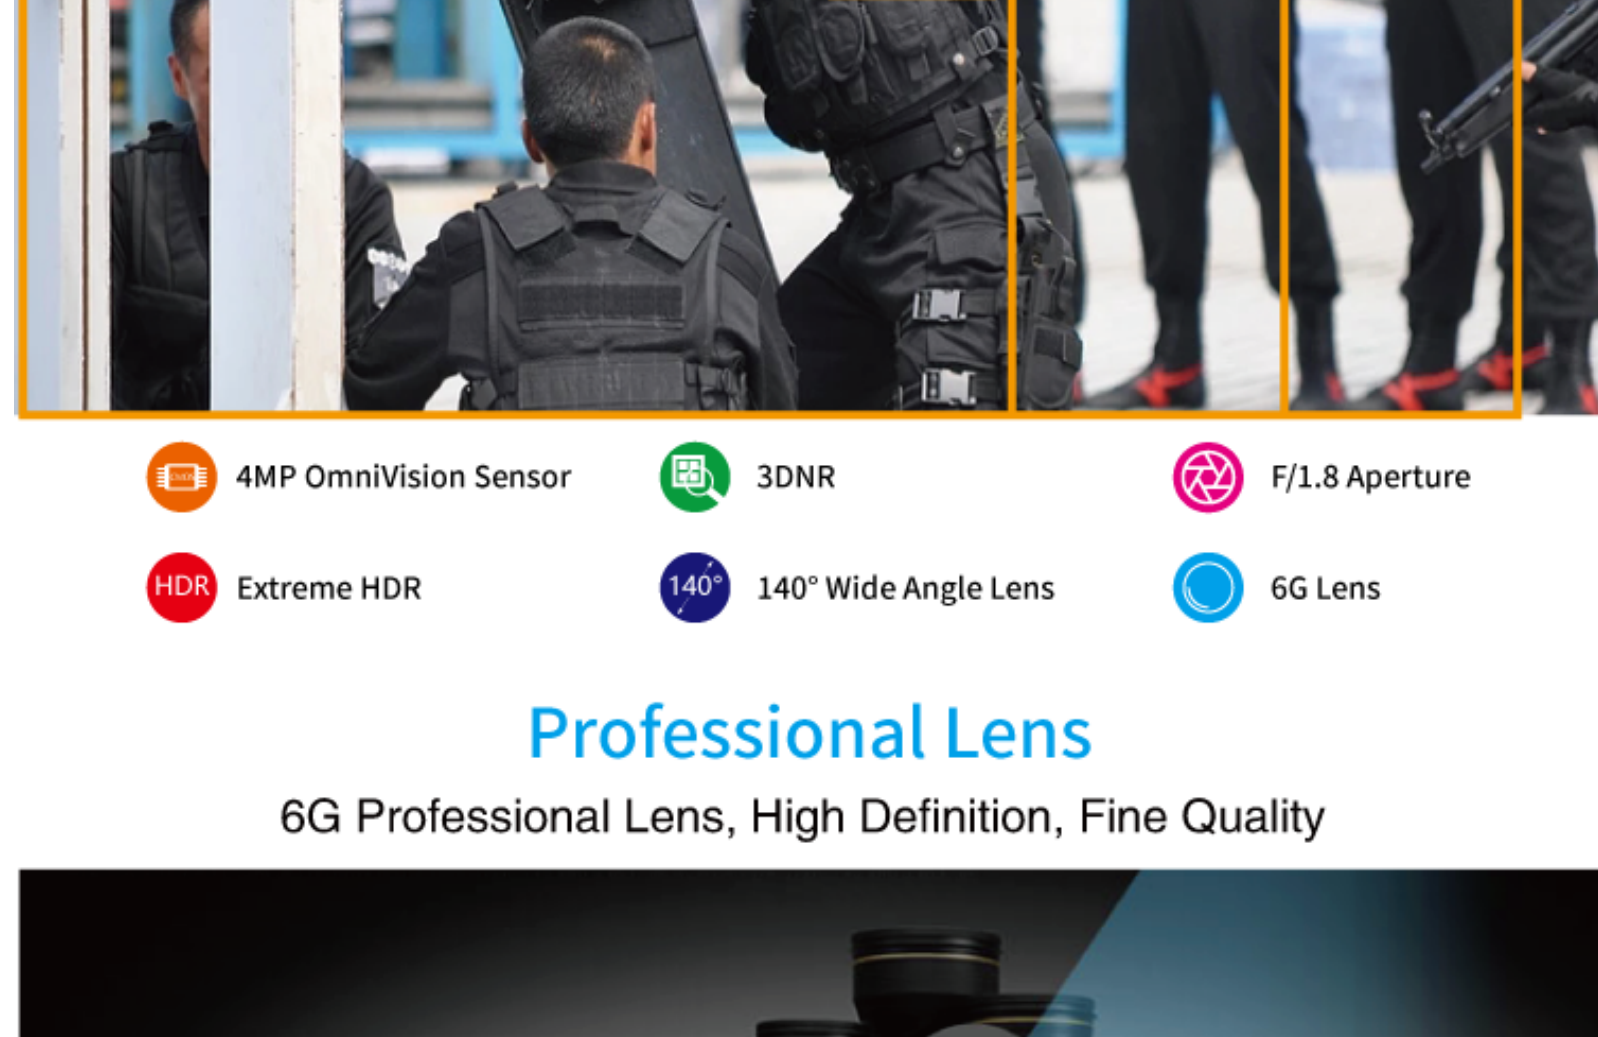

## Built-in WIFI module

The built-in WIFI module, intelligent wireless Internet applications. A dedicated channel, transmission speed faster, more reliable, more stable.

## Extreme HD 1512P

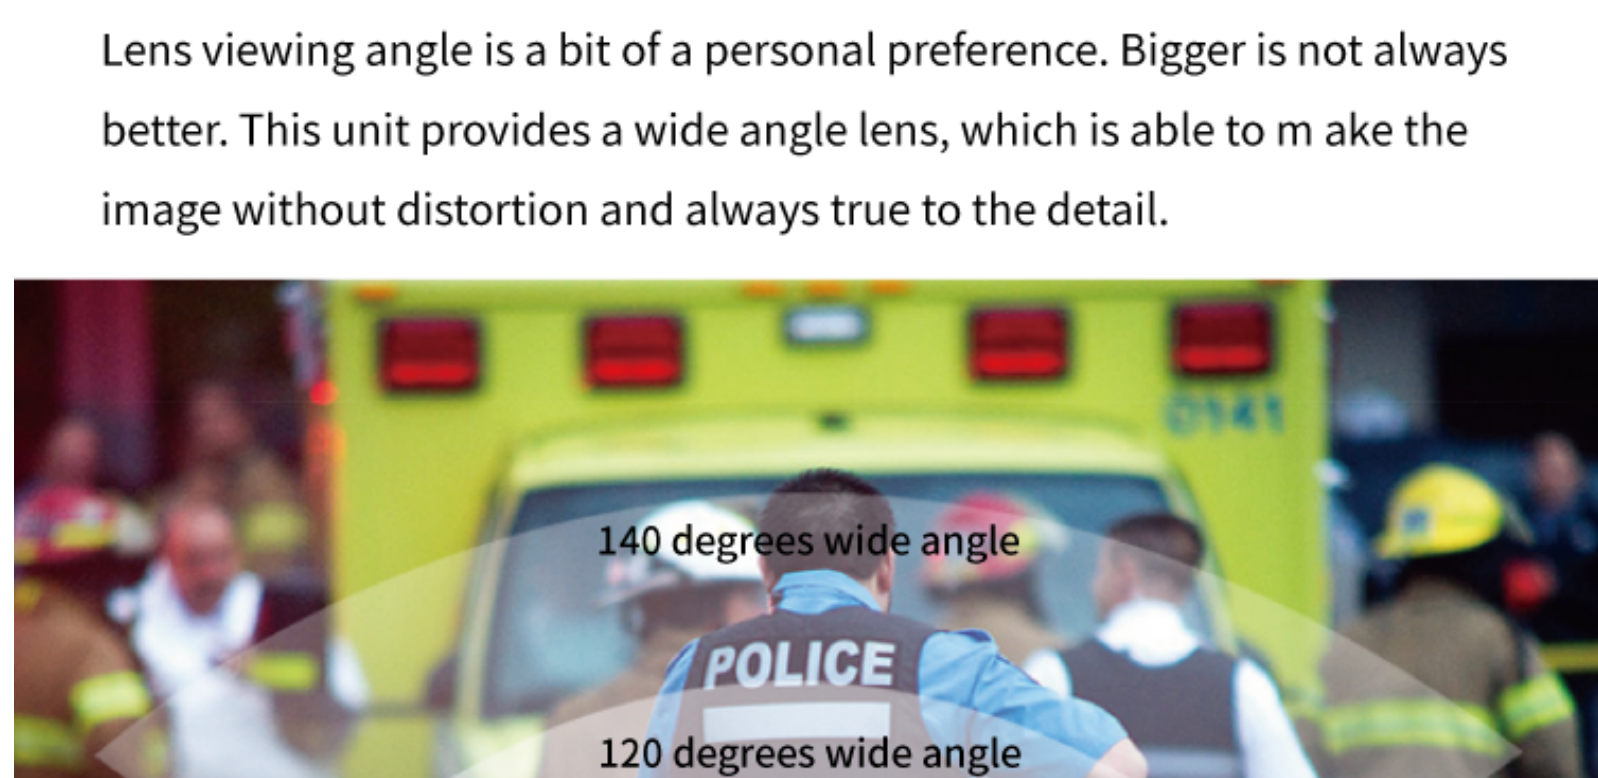

With the 1512P ultra high definition, this unit has the highest resolution in the market, ensuring excellent footage day or night. Compared to 1080P resolution, the image quality has been increased by 2 times. Get ready to receive all the extraordinary images anytime and anywhere.

- 4MP OmniVision Sensor
- 3DNR
- F/1.8 Aperture
- Extreme HDR
- 140° Wide Angle Lens
- 6G Lens

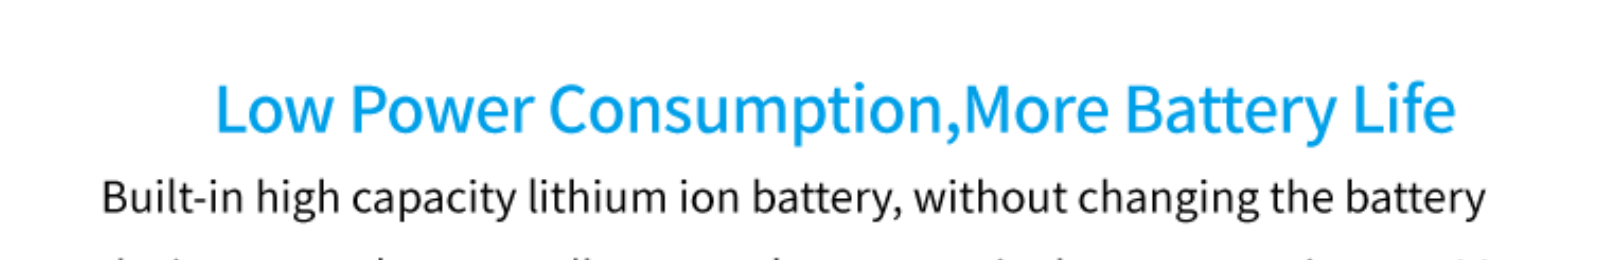

## Professional Lens

6G Professional Lens, High Definition, Fine Quality

## 140° Wide Angle Lens

Lens viewing angle is a bit of a personal preference. Bigger is not always better. This unit provides a wide angle lens, which is able to make the image without distortion and always true to the detail.

## Low Power Consumption, More Battery Life

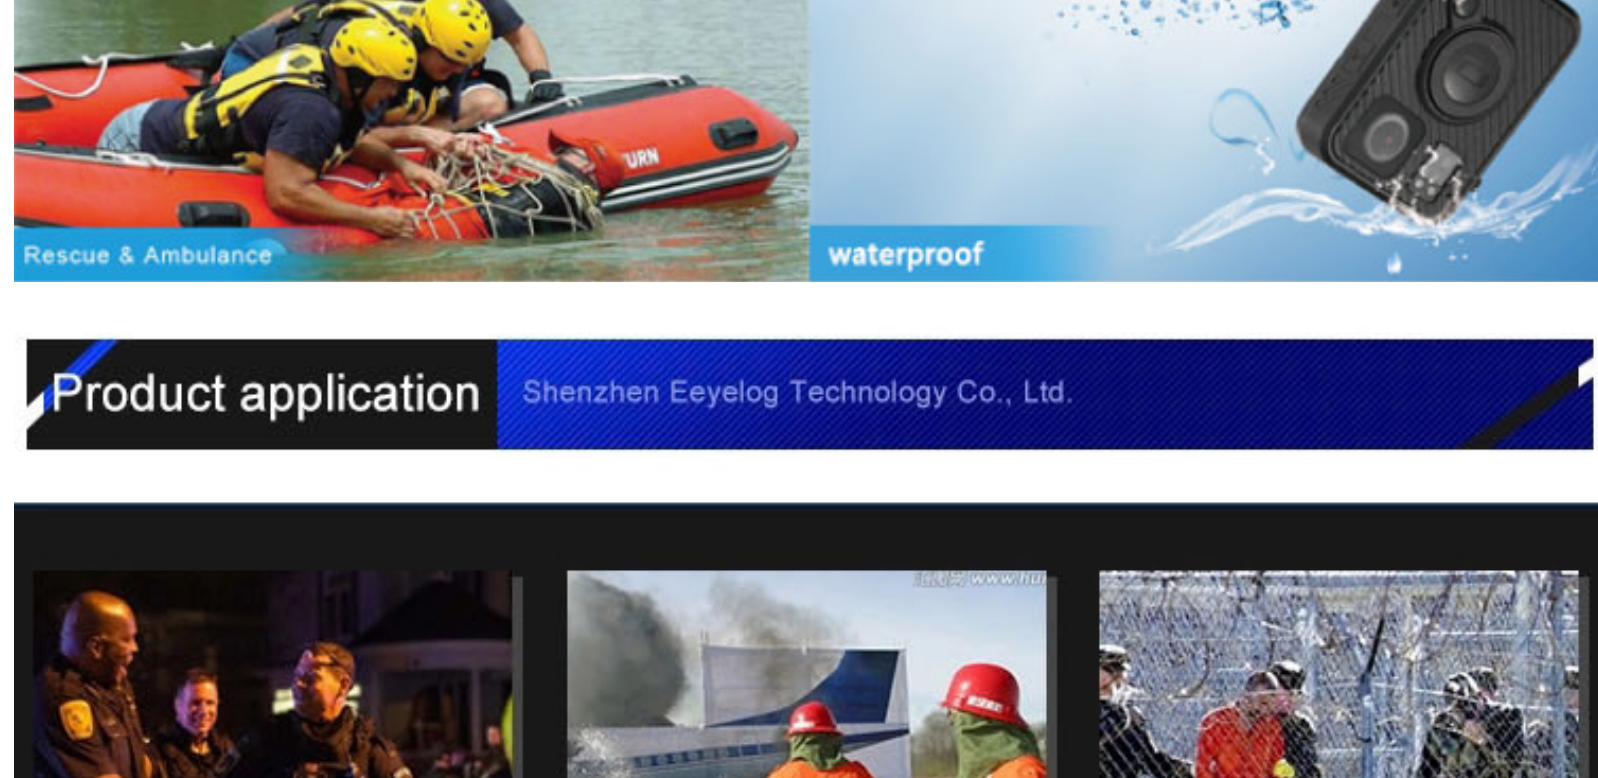

Built-in high capacity lithium ion battery, without changing the battery design, super long standby, super large capacity battery, continuous 11 hours of video, to ensure that law enforcement responsibility for a long time.

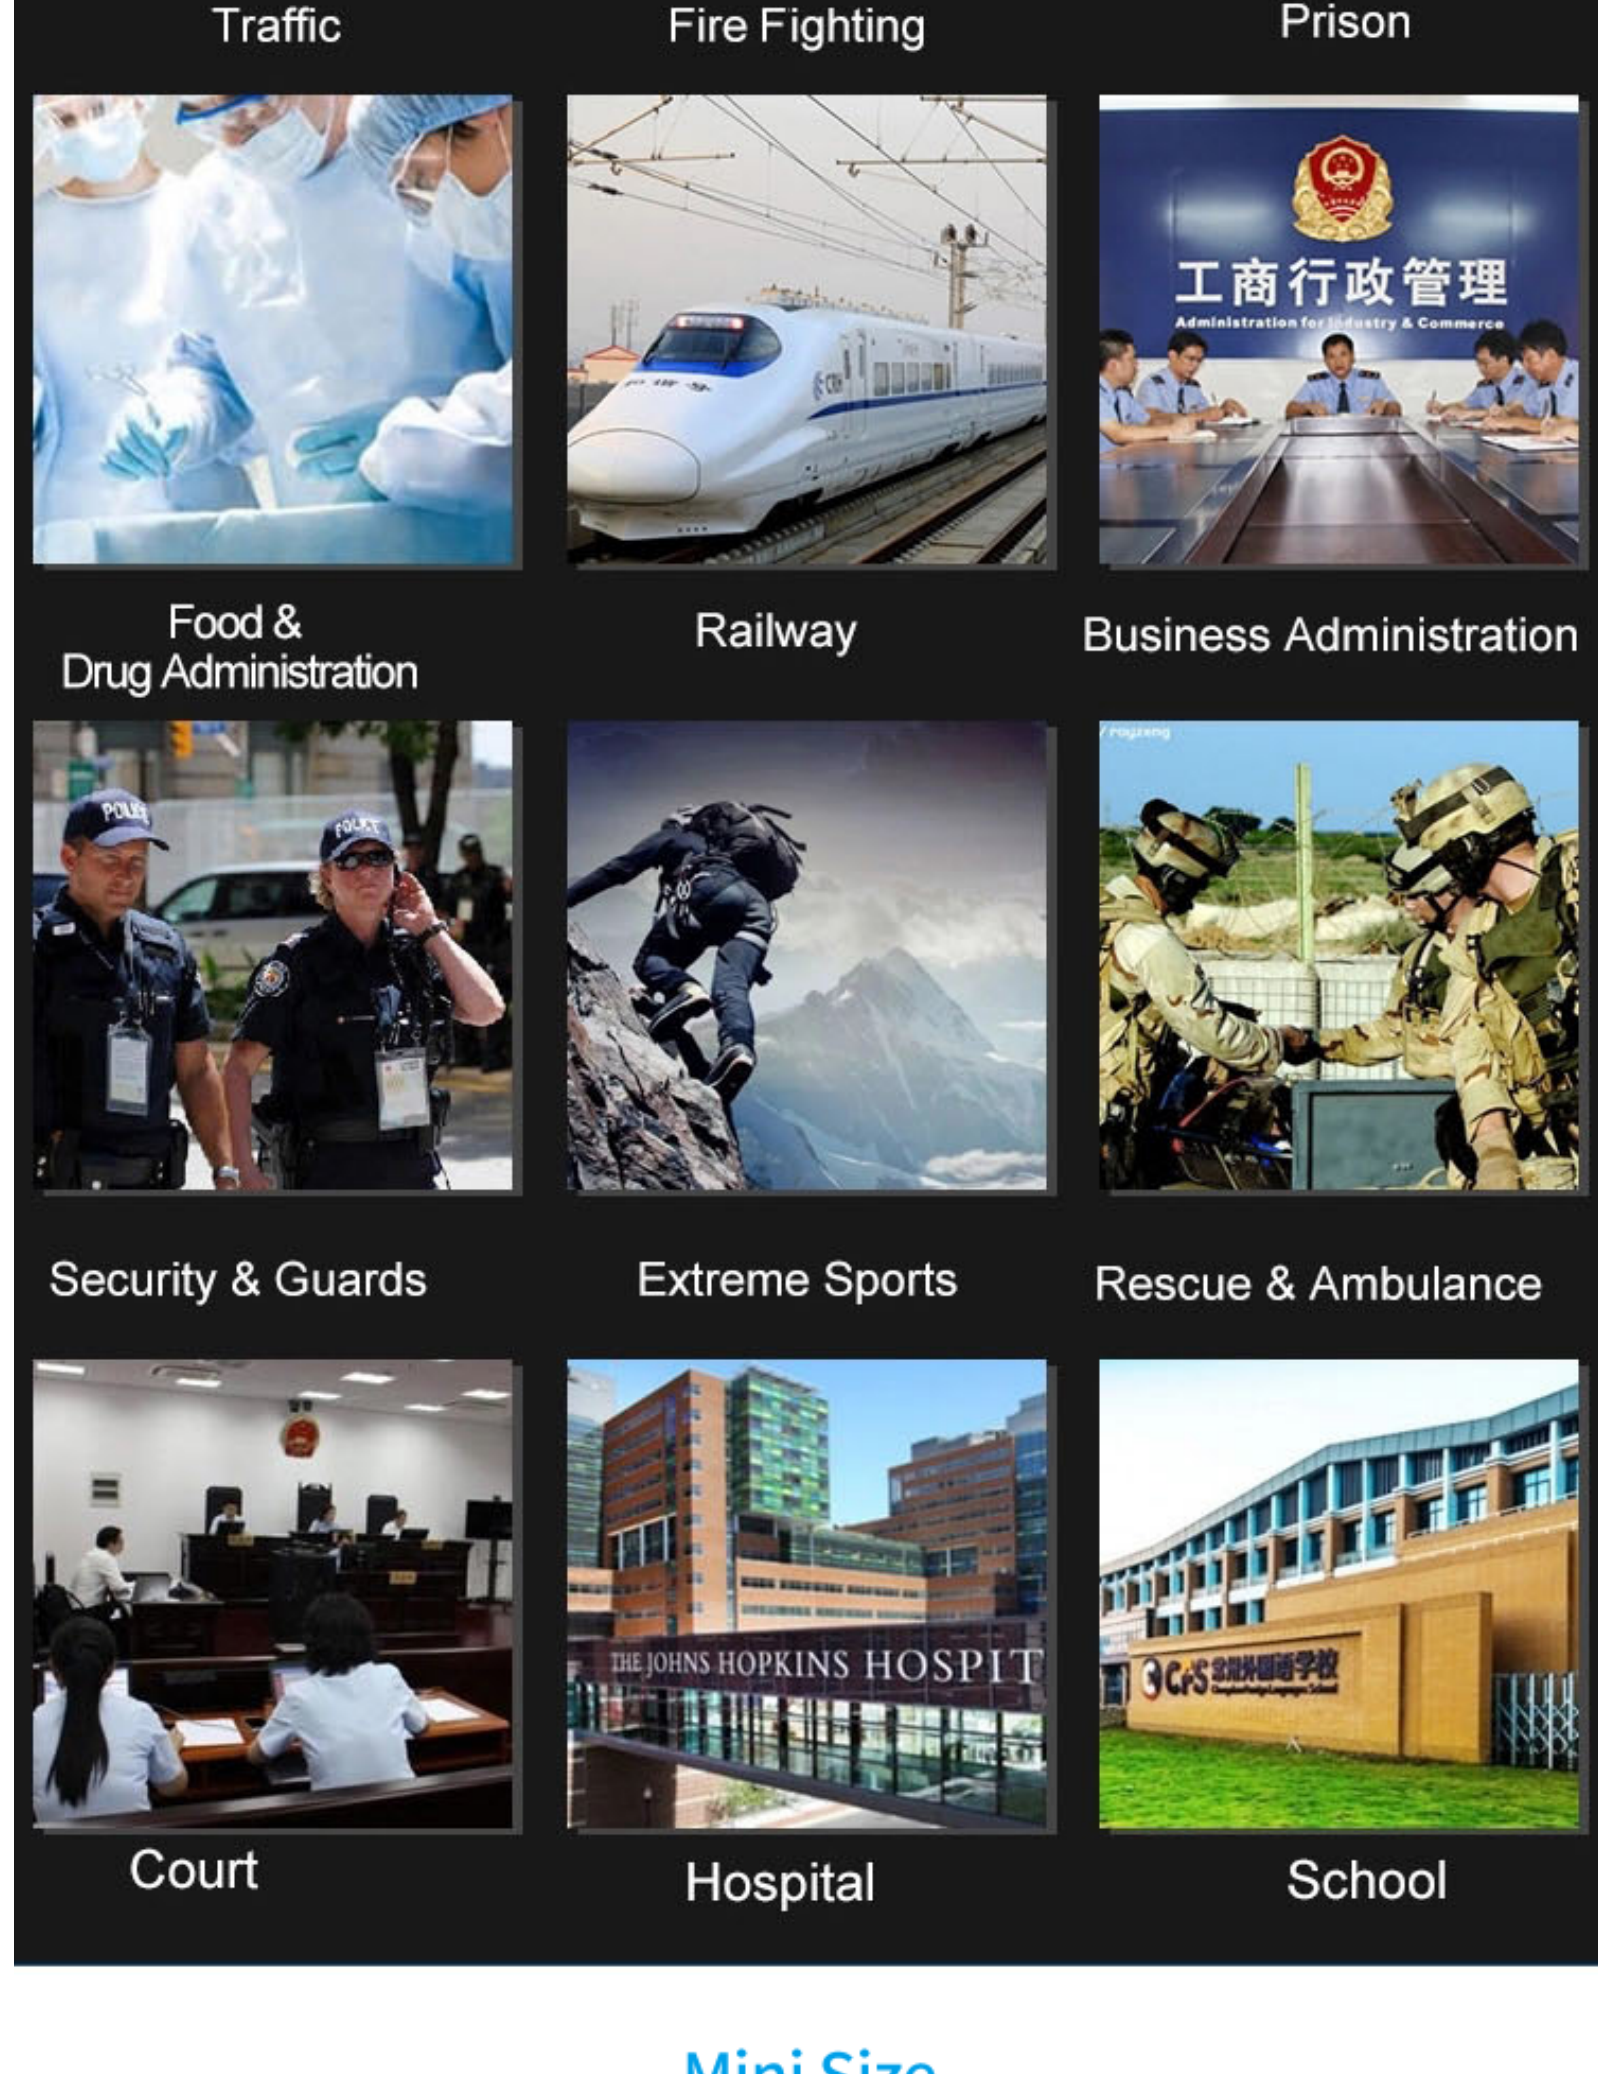

## IP66 anti-corrosion technology

Double color mold production process, which can effectively prevent waterproof and dustproof.

IP66: first expressed solid protection grade, the second said protection grade of liquid, solid protection grade seven grades, use a scale of 0-6 respectively, liquid protection grade nine grades, with 0 - 8 respectively.

## Product application

## Mini Size

Ultra min design, break tradition.

## Small volume, big function

Super mini HD BODY CAMERA, Mini screen, a key video, operation more convenient.
